

## **INFRASTRUCTURE SPECIALIST**

### **Who We Are?**

OneLook Systems is a diverse, fast-growing SaaS company headquartered in Cork, Ireland. Offering an innovative and market leading safety software solution, we are looking to increase our workforce in order to serve our global client base.

The cloud-based software system designed by OneLook Systems provides contractor management solutions to the most recognisable companies in the world including; Google, Diageo, GSK, Mars, Nestle, Johnson & Johnson, Heineken and many more.

### **Why join OneLook Systems?**

If you like working as part of a team in an environment that is fast paced, challenging and offers rewards, then OneLook Systems is the company for you. As an Infrastructure Specialist you will be taking on the crucial role of supporting our growing company with the right tools and technology.

### **Duties and Responsibilities:**

- Experience with Amazon Web Services (EC2, RDS) Windows 10 Administration skills.
- Inventory Management (Lansweeper or similar).
- Previous exposure to Central Antivirus solution management (Symantec Cloud Antivirus, Sophos Central or similar).
- Windows Server Windows Server 2016 or above (Active Directory management, Windows Policies Management, WDS and MDT).
- Basic networking knowledge and some Switch and Router configuration skills (Subnetting, Vlan's, Nat, Proxy, Reverse-Proxy).
- Basic knowledge on Virtualization technologies (Virtualbox, VMWare, KVM, Hyper-V)
- Basic Linux knowledge on any Linux distribution.
- Ability to create clear concise documentation.
- Internal office help desk.

### **Great to have but not Essential**

- Voice over IP
- Basic web server administration (IIS, Nginx, Apache)

### **Key Attributes and Qualifications:**

- Excellent communication, problem solving and analytical skills.
- Rapidly adapt and respond to changes.
- A genuine desire to help people.

### **Experience and Education:**

- 3+ years' experience in infrastructure support.
- Third Level degree in relevant technical discipline.

### **Benefits:**

- Flexible working hours
- Regular team building and staff outing events
- Training and development to help you progress your career
- Fun, open, energetic environment that allows your creativity to flow
- Competitive salary and bonus opportunities

- Healthy snacks and great coffee

Most importantly the person we are looking for must enjoy working as part of a team in a dynamic, fast-paced environment which places its highest value on being the software company people love to work with.
